

**Powerful and
Reliable Operation**

Continuous power
protection, built to last.

**Digital Control
System**

Smart core for
real-time voltage
regulation

**Time-Delay
Startup**

Adjustable startup delay
from 30 to 300 seconds

Features

- Protection of electrical appliances from mains voltage fluctuations (Compensates for input voltage fluctuations from 155V to 265V)
- Surge protection against lightning strikes
- Adjustable power-up delay protection circuit
- Adjustable regulation sensitivity based on input voltage and load conditions
- Equipped with a digital display for monitoring and configuring system parameters

Parameter	1000 Full	2000 Full	3000 Full
Operating Voltage	155-265 V		
Number of Steps	-1/+3		
Input Frequency	45-55 Hz		
Nominal Power	1000 VA	2000 VA	3000 VA
Nominal Current	5 A	10 A	15 A
Starting Current	10 A	20 A	30 A
Dimension (H×W×L)	20.3×19.9×9.2 cm		
Weight	4.3 Kg	7.1 Kg	9.2 Kg
Number of Outlets	3	2	2
Operating Temperature	5-35° c		
Display	3-Digit 7-Segment
